

3-TIER GLAZED CERAMIC PITCHERS TABLETOP FOUNTAIN SSS-478

Read the assembly instructions carefully and follow the care instructions. Keep these instructions for future reference.

Assemble components of this fountain on a soft, clean surface to avoid scratching or damaging the finish.

Inspect packaging to ensure all parts are accounted for before disposing of packaging.

ASSEMBLY

1. Attach the pump to the built-in tubing inside the fountain.
2. Fill the fountain with enough water to keep the pump fully submerged during operation.
3. Plug the power cord into an electrical outlet.

Note: When first used, there may be air in the pump. It may take several minutes for trapped air to escape, allowing water to flow.

⚠ IMPORTANT INFORMATION ⚠

USE & CARE

- INDOOR USE ONLY.
- Check the water level frequently to ensure the pump remains fully submerged; never allow the pump to run dry as it will burn out the motor.
- Only use water in this fountain; distilled water is recommended to prevent mineral buildup.
- Periodically change the water to keep the water, fountain and pump clean. Remove scale and build-up regularly.
DO NOT use harmful additives such as bleach, chlorine, etc.
DO NOT use anything abrasive to scrub the fountain.
- Always shut off the power supply before cleaning and maintaining the fountain and the recirculating pump.
- Take care when handling the pump; only pick it up by the body of the pump, never the power cord.

TROUBLESHOOTING

- Ensure that the pump is fully submerged and add water to the basin if necessary.
- Check to make sure the power outlet is working; if in doubt about electrical connections, consult a certified electrician.
- Check the pump and tubing for obstructions.
- Check the flow control on the body of the pump as it may need to be adjusted to achieve the desired flow rate.
- If water is not flowing within several moments of the fountain being plugged in, unplug the power supply for a few moments and plug it back in; the pump may have air bubbles in the filter which can prevent water from circulating properly.

Any modification or failure to follow the recommended care will void the product warranty.
