## **MOSAIC GLASS BIRD FEEDER**

**Please read this manual carefully before use and keep it for future reference.**

### **CHOOSING A LOCATION**

A shaded location is recommended for hanging mosaic glass bird feeders. Mosaic glass can have a mirror-like, reflective effect when placed in full sunlight which can cast strong light reflections. Strong reflections of light may frighten birds which makes selecting a location with limited sun exposure ideal.

### **CLEANING**

1. Clean the feeder with mild detergent, warm water, and a soft cloth.
2. Rinse thoroughly, ensuring all soap residue has been removed.
3. Dry with a soft towel. Ensure the inside of the feeder is completely dry before adding seed.

### **⚠ SAFETY STATEMENTS & WARNINGS ⚠**

- Do not use harsh chemicals or abrasive materials to clean the unit as they may damage the product and void the product warranty.
- Do not hang the feeder too close to buildings or objects that may break the feeder during windy conditions. Storing the feeder indoors during high-wind conditions is recommended.

**Any modification or failure to follow the recommended care will void the product warranty.**
